FREE ADMISSION

TIME: 10 AM - 4 PM

ST. THOMAS - SATURDAY, MARCH 7TH, 2020

ST. CROIX - SUNDAY, MARCH 8TH, 2020

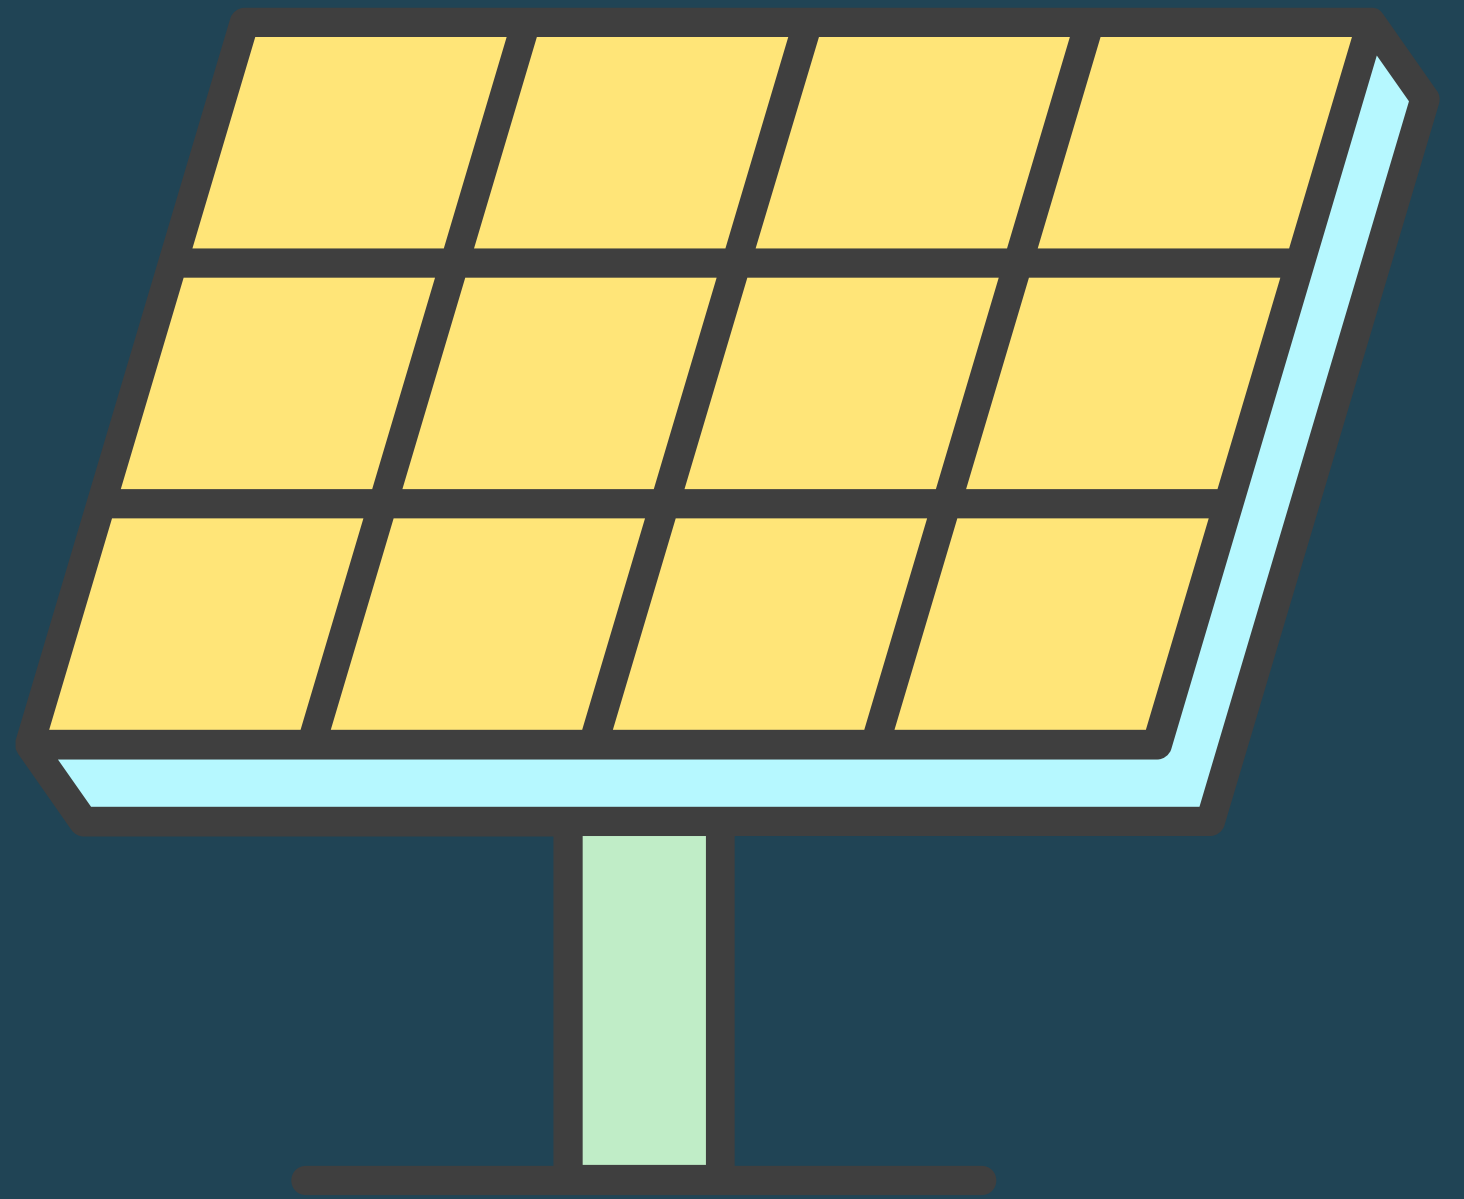

# ENERGY FAIR

**Are you a local vendor in renewable energy systems, energy storage or energy efficiency?**

The Energy Fair will provide booths for companies interested in promoting their products or services related to energy to the people of the U.S. Virgin Islands.

- Vendors can display their products and services on either St. Thomas (Saturday, March 7th) or St. Croix (Sunday, March 8th)
- We hope to attract 200+ people to this event making it a great way to reach potential customers
- In addition to the local vendor expo we will also provide a series of workshops on renewable energy systems, energy efficiency, energy conservation, energy storage and energy independence

**If interested please contact Greg Guannel at the  
UVI Caribbean Green Technology Center**

**340-693-1478**
